Accentuated lines in three different finishes ferro soft, ferro light and ferro create a lively relief and set exciting highlights on every facade.

PRODUCT: concrete skin
WIDTH: max. 1500 mm
LENGTH: max. 5000 mm
THICKNESS: 13 + 2 mm
COLOURS: greyscale, timber, bricky, pietra
SURFACES: ferro soft, ferro light, ferro
WEIGHT: 30 - 35 kg/m²

www.rieder.cc
The natural imperfection and visual irregularity of the vintage panels give the facade a unique appearance and above all individuality, since no slab is like any other.

PRODUCT  concrete skin, öko skin
WIDTH     max. 1310 mm
LENGTH    max. 5000 mm
THICKNESS 13 mm
COLOUR    anthracite, liquid black, terra, walnut, ebony, oxide red, burgundy, merlot
SURFACE  matt
WEIGHT    ~ 30 kg/m²
**texture**

*terrazzo black*

The coarse, dark grain gives this slab a individual look. A special surface treatment lends the texture a unique speckled appearance, which forms an exciting contrast especially with light colours. terrazzo black gives the facade a discreet two-tone effect.

**WIDTH**
- max. 1500 mm

**LENGTH**
- max. 5000 mm

**THICKNESS**
- 13 mm

**COLOURS**
- greyscale (excl. liquid black), timber, bricky, pietra

**SURFACES**
- ferro, ferro plus

**WEIGHT**
- ~ 30 kg/m²
**texture**

**luce silver**

The addition of mica gives the facade a glittering, shimmering appearance. Depending on how the sunlight falls, the particles reflect in different ways and create unique effects. This is definitely the texture for individual highlights.

The exquisite texture is an interior highlight and an elegant eye-catcher. The shiny surface reflects the light. The slabs have a different look depending on the incidence of light.

PRODUCT     concrete skin
WIDTH        max. 1500 mm
LENGTH       max. 5000 mm
THICKNESS    13 mm
COLOURS      greyscale, timber, bricky, pietra
SURFACE      solo
WEIGHT        ~ 30 kg/m²
Irregular lines playfully run across the slabs like ribbons. The combination of straight and angled, partially overlapping lines of different sizes creates an exciting visual effect on the facade. The flow of the lines harmoniously integrates into the overall picture.

The appearance of the texture is based on slate slabs and their natural layers. A unique light refraction occurs at the edges of the rock layers, causing them to stand out to varying degrees depending on the angle the light hits.

lumber
lumber is based on an authentic natural look. A homogeneous wood grain lends the building envelope a strong depth effect. Similar to wood, the facade panels have a multi-layered effect, but unlike wood, they do not require additional weather protection.

**PRODUCT**
- concrete skin

**WIDTH**
- max. 1500 mm

**LENGTH**
- max. 5000 mm

**THICKNESS**
- 13 + 3 mm

texture
pattern

There is no limit to the imagination when it comes to designing the texture pattern. Individually selected patterns are blasted into the glassfibre reinforced concrete elements. These give the facade an extraordinary look and feel as well as a unique appearance.

PRODUCT concrete skin
WIDTH max. 1310 mm
LENGTH max. 5000 mm
THICKNESS 13 mm
COLOURS greyscale, timber, bricky, pietra
SURFACE matt and ferro
WEIGHT ~ 30 kg/m²
concrete skin breeze
concrete skin
breeze

Small gaps in the large glassfibre reinforced concrete panels create a partial view of the surroundings. This results in an interesting interplay between transparency and cladding.
